## Please read these instructions first before using your appliance

Thank you for choosing a Beko appliance.

Please take some time to read this user manual before using your appliance, to ensure you know how to safely operate the controls and functions.

Carefully follow all unpacking and installation instructions to ensure the appliance is correctly connected and fitted prior to use.

Please write your product model and serial number on the last page of this user manual, and store in a safe location close to the appliance for easy future reference.

This user manual may also be applicable for several other models. Differences between models will be listed.

If you have any questions or concerns, please call our Customer Service Team or find help and information online at [www.beko.co.uk](http://www.beko.co.uk)

The following symbols are used in the user guide:

 Hazard that may result in death or injury.

**NOTICE** A hazard that may cause material damage to the product or its surroundings

 Important information or useful tips on operation.

 Read the user manual.

 Risk of fire / Flammable materials

# 1 Your refrigerator

Congratulations on your choice of a **Beko** quality Appliance which has been designed to give you service for many years.

1. Thermostat
2. Flap (Fast-Freeze compartment)
3. Drawers
4. Adjustable front feet

**i** Figures that take place in this instruction manual are schematic and may not correspond exactly with your product. If the subject parts are not included in the product you have purchased, then it is valid for other models.

## 2 Warnings

---

- Do not connect your appliance to the electricity supply until all packing and transit protectors have been removed.
- If transported horizontally leave to stand upright for at least 4 hours before switching on to allow compressor oil to settle
- If you are discarding an old refrigerator with a lock or latch fitted to the door, disable the lock/latch, ensure that it is left in a safe condition to prevent the entrapment of young children.
- This fridge/freezer must only be used for its intended purpose i.e the storing and freezing of edible foodstuff.
- Do not dispose of the appliance on a fire. At **Beko**, the care and protection of our environment is an ongoing commitment. This appliance which is among the latest range introduced is particularly environment friendly. Your appliance contains non CFC / HFC natural substances in the cooling system (Called R600a) and in the insulation (Called cyclopentane) which are potentially flammable if exposed to fire. Therefore, take care not to damage, the cooling circuit / pipes of the appliance in transportation and in use. In case of damage do not expose the appliance to fire or potential ignition source and immediately ventilate the room where the appliance is situated.
- We suggest you contact your local authority for disposal information and facilities available.
- To obtain the best possible performance and trouble free operation from your appliance it is very important to carefully read these instructions.
- On delivery, check to make sure that the product is not damaged and that all the parts and accessories are in perfect condition.
- Ensure that the plug remains readily accessible. Do not use multiple adapter or extension cable.
- Failure to observe these instructions may invalidate your right to free service during the guarantee period.
- Keep ventilation openings, in the appliance enclosure or in the built-in structure, clear of obstruction.
- Do not damage the refrigerant circuit.
- Do not use electrical appliances inside the food storage compartments of the appliance, unless they are of the type recommended by the manufacturer.

- We suggest you keep these instructions in a safe place for easy reference.
- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
- Children should be supervised to ensure that they do not play with the appliance.

## Electrical requirements

Before you insert the plug into the wall socket make sure that the voltage and the frequency shown on the rating plate inside the appliance corresponds to your electricity supply.

Rating label is on the left hand side of fridge inner liner.

We recommend that this appliance be connected to the mains supply via a suitable switched and fused socket. The appliance must be positioned so that the plug is accessible.

## WARNING:

When positioning the appliance ensure the supply cord is not trapped or damaged.

Should the mains lead of the appliance become damaged or should it need replacing at any time, it must be replaced by a special purpose made mains lead which can only be obtained from a **Beko** authorised service agent.

## Warning! This appliance must be earthed

If the fitted moulded plug is not suitable for your socket, then the plug should be cut off and an appropriate plug fitted. Destroy the old plug which is cut off as a plug with bared cord could cause a shock hazard if inserted into a socket elsewhere in the house.

The moulded plug on this appliance incorporates a 13 A fuse. Should the fuse need to be replaced an ASTABEAB approved BS 1362 fuse of the same rating must be used. Do not forget to refit the fuse cover. In the event of losing the fuse cover the plug must not be used until a replacement fuse cover has been fitted.

Colour of the replacement fuse cover must be the same colour as that visible on the pin face of the plug. Fuse covers are available from any good electrical store.

## Important! Fitting A Different Plug

1. As the colours of the wires in the mains lead of this appliance may not correspond with the coloured markings identifying the terminals in your plug proceed as follows: (See diagram).
2. Connect the green-yellow or green (Earth) wire to the terminal in the plug marked

'E' or with the symbol  or coloured green and yellow or green.

3. Connect the blue (Neutral) wire to the terminal in the plug marked 'N' or coloured black.
4. Connect the brown (Live) wire to the terminal in the plug marked 'L' or coloured red.
5. With alternative plugs a 13 A fuse must be fitted either in the plug or adaptor or in the main fuse box. If in doubt contact a qualified electrician.

## Energy saving tips

1. Ensure your appliance is installed in a well ventilated area.
2. Ensure the time between buying chilled/frozen food and placing them in your appliance is kept at minimum, particularly in summer. We recommend you use a cool bag or a special carrier bag to carry perishable food.
3. Do not leave the door (s) of your appliance open longer than necessary and ensure they are closed properly after each opening.
4. Defrost frozen food in the fridge compartment, so that frozen food acts as an ice pack to assist cooling in the fridge.
5. Energy consumption of this appliance is measured while freezer compartment is loaded without use of top shelf lid and the drawers except the bottom drawer. It is advised that freezer compartment is loaded without use of drawers except the bottom drawer in order to achieve maximum loading capacity.

## **Compliance with WEEE Directive and Disposing of the Waste Product:**

This product complies with EU WEEE Directive (2012/19/EU). This product bears a classification symbol for waste electrical and electronic equipment (WEEE). This product has been manufactured with high quality parts and materials which can be reused and are suitable for recycling. Do not dispose of the waste product with normal domestic and other wastes at the end of its service life. Take it to the collection center for the recycling of electrical and electronic equipment. Please consult your local authorities to learn about these collection centers.

## **Compliance with rohs directive:**

The product you have purchased complies with EU RoHS Directive (2011/65/EU). It does not contain harmful and prohibited materials specified in the Directive.

## **Package information**

Packaging materials of the product are manufactured from recyclable materials in accordance with our National Environment Regulations. Do

not dispose of the packaging materials together with the domestic or other wastes. Take them to the packaging material collection points designated by the local authorities.

## 3 Installation

### Installation Instructions

1. The space in the room where the appliance is installed must not be smaller than 10 cubic metres.

2. If possible avoid placing the appliance near cookers, radiators or in direct sunlight as this will cause the compressor to run for long periods. If installed next to a source of heat or refrigerator, maintain the following minimum side clearances:

From Cookers 2" (50 mm)

From Radiators 2" (300 mm)

From Refrigerators or Freezers 1" (25 mm)

3. Make sure that sufficient room is provided around the appliance to ensure free air circulation. Allow a minimum of 60 mm (2.4 inches) between the top of the appliance and the ceiling or the underside of a wall cupboard.

4. Fit the two plastic wall spacers supplied onto the condenser at the back of the appliance by rotating them 1/4 turn.

5. The appliance should be located on a smooth surface. The two front feet can be adjusted as required. To ensure that your appliance is standing upright adjust the two front feet by turning clockwise or anti-clockwise, until the product is in firm contact with the floor. Correct adjustment of feet avoids excessive vibration and noise.

6. Refer to "Cleaning and Care" section to prepare your appliance for use.

7. A special receptacle is supplied to store the mains plug during transit. The receptacle is fixed at the back of the cabinet, on the right hand side of the compressor. (See diagram) Gently remove the plug from the receptacle. Never pull the mains cord, you may damage the appliance. In the case of transportation, ensure you locate the plug in the receptacle provided to avoid transit damage.

## Reversing the doors

Proceed in numerical order .

## 4 Before operating

### Starting

#### Final Check

Before you start using the refrigerator check that:

1. For a freestanding appliance; 'this refrigerating appliance is not intended to be used as a built-in appliance.
2. The front feet have been adjusted so the appliance is level.
3. The interior is dry and air can circulate freely at the rear.
4. Clean the interior as recommended under "CLEANING AND CARE."
5. Insert the plug into the wall socket and switch on the electricity supply. Avoid accidental disconnection by taping over the switch. Green light will glow and the compressor will start running in about five minutes.
6. You will hear a noise as the compressor starts up. The liquid and gases sealed within the refrigeration system may also give rise to noise, whether the compressor is running or not which is quite normal.
7. If you are going to store frozen food open the freezer door and check that the fast-freeze mode is off. (thermostat knob is not set to maximum position and the amber light is not on). When temperature reaches -18 °C or below, you can put in your frozen food. (See Storing Frozen Food ).
8. If you are going to freeze fresh food, you must switch the thermostat knob to maximum position. The

amber light will come on and you must wait at least three hours before putting in your fresh food to be frozen. (See Freezing Fresh Food)

9. Front edges of the cabinet may feel warm. This is normal. These areas are designed to be warm to avoid condensation.

10. We recommend that you set the thermostat knob at MIN setting and monitor the temperature to ensure the appliance maintains desired storage temperatures (See Temperature Control and Adjustment section).

#### Important Note :

1. If there is a power failure do not open the door. Frozen food should not be affected if the failure lasts for less than 11 hours. If the failure is longer, then the food should be checked and either eaten immediately or cooked and then re-frozen.

2. If you find the freezer door difficult to open just after you have closed it, don't worry. This is due to the pressure difference which will equalise and allow the door to open normally after a few moments.

3. You will hear a vacuum sound just after closing the door. This is quite normal.

4. When you switch on, the appliance will not start immediately, because the appliance incorporates a protection device in the electronics - wait for about 5 minutes.

**5.** If the freezer door is left open [Or ajar], the door open alarm will be activated in a few minutes. You will hear the audible alarm “beep” warning to make you aware that the door is not shut fully. As soon as you close the door, the audible alarm would cancel itself.

**6.** Since hot and humid air will not directly penetrate into your product when the doors are not opened, your product will optimize itself in conditions sufficient to protect your food. Functions and components such as compressor, fan, heater, defrost, lighting, display and so on will operate according to the needs to consume minimum energy under these circumstances.

## 5 Using your refrigerator

---

### Setting the operating temperature

The operating temperature is regulated by the temperature control.

1 = Lowest cooling setting (Warmest setting)

MAX. = Highest cooling setting (Coldest setting)

\* Additionally activities quick fridge function.

Please choose the setting according to the desired temperature.

The interior temperature also depends on ambient temperature, the frequency with which the door is opened and the amount of foods kept inside.

Frequently opening the door causes the interior temperature to rise.

For this reason, it is recommended to close the door again as soon as possible after use.

The normal storage temperature of your appliance should be  $-18^{\circ}\text{C}$  ( $0^{\circ}\text{F}$ ). Lower temperatures can be obtained by adjusting the thermostat knob towards Position MAX.

We recommend checking the temperature with a thermometer to ensure that the storage compartments are kept to the desired temperature. Remember to take the reading immediately since the thermometer temperature will rise very rapidly after you remove it from the freezer.

### Thermostat knob

The thermostat knob is located on the top trim.

Important:

When you press the fast-freeze switch or adjust the set temperature, there may be a short delay before the compressor starts to operate. This is normal and not a compressor fault.

## Freezing

### Freezing food

You can use the appliance for freezing fresh food as well as for storing pre-frozen food.

Please refer to the recommendations given on the packaging of your food.

- **Attention**

Do not freeze fizzy drinks, as the bottle may burst when the liquid in it is frozen.

Be careful with frozen products such as coloured ice-cubes.

Do not exceed the freezing capacity of your appliance in 24 hours. See the rating label.

In order to maintain the quality of the food, the freezing must be effected as rapidly as possible.

Thus, the freezing capacity will not be exceeded, and the temperature inside the freezer will not rise.

- **Attention**

Keep the already deep-frozen food always separated with freshly placed food.

When deep-freezing hot food, the cooling compressor will work until the food is completely frozen. This can temporarily cause excessive cooling of the refrigeration compartment.

If you find the freezer door difficult to open just after you have closed it, don't worry. This is due to the pressure difference which will equalize and allow the door to open normally after a few minutes.

You will hear a vacuum sound just after closing the door. This is quite normal.

### Fast freeze

If large amounts of fresh food are going to be frozen, adjust the control knob to max. 24 hours before putting the fresh food in the fast freeze compartment.

It is strongly recommended to keep the knob at MAX. position at least 24 hours to freeze maximum amount of fresh food declared as freezing capacity. Take special care not to mix frozen food and fresh food.

Remember to turn the thermostat knob back to its previous position once food has frozen.

**i** This appliance is equipped with Freezer Guard which ensures that at the advised setting [4 - four on the knob] the frozen food in the freezer will not defrost even if the ambient temperature falls as low as -15 °C. So you may then install your appliance in a garage or an unheated room without having to worry about frozen food in the freezer being spoilt. When the ambient temperature returns to normal, you may change the knob setting to suit your needs.

## How to Freeze Fresh Foods

- Foods to be frozen must be divided into portions according to a size to be consumed, and frozen in separate packages. In this way, all the food should be prevented from being re-frozen by thawing.
- In order to protect the nutritional value, the aroma and the color of the foods as much as possible, vegetables should be boiled for a short period of time before freezing. (Boiling is not necessary for foods such as cucumber, parsley.) Cooking time of the vegetables frozen in this way is shortened by 1/3 than that of the fresh vegetables.
- To extend the storage times of frozen foods, boiled vegetables must first be filtered and then hermetically packaged as in the all types of foods.
- Foods should not be placed in the freezer compartment without package.
- The packaging material of the food to be stored should be air-tight, thick and durable and should not deform with cold and humidity. Otherwise, the food that is hardened by freezing might pierce the package. Sealing the package well is also important in terms of securely storing the food.

The following packaging types are suitable for use to freeze the food:

Polyethylene bag, aluminum foil, plastic foil, vacuum bags and cold-resistant storage containers with caps.

The use of the following types of packaging is not recommended to freeze the food;

Packaging paper, parchment paper, cellophane (gelatin paper), garbage bag, used bags and shopping bags.

- Hot foods should not be placed in the freezer compartment without cooling.
- When placing unfrozen fresh foods in the freezer compartment, please note that it does not contact with frozen foods. Cool-pack (PCM) (if any) can be placed to the rack immediately below the quick freezer rack for preventing them from being getting warm.
- During the freezing time (24 hours) do not place other food to the freezer.
- Place your foods to the freezing shelves or racks by spreading them so that they will not be cramped (it is recommended that the packaging does not come into contact with each other).
- Frozen foods must be immediately consumed in a short period of time after defrosting and must never be frozen again.
- We recommend you to attach a label onto the package and write the name of the foods in the package and the freezing time.

Foods suitable for freezing:

- Fish and seafood, red and white meat, poultry, vegetables, fruit, herbaceous spices, dairy products (such as cheese, butter and strained

yoghurt), pastries, ready or cooked meals, potato dishes, soufflé and desserts.

Foods not suitable for freezing:

- Yoghurt, sour milk, cream, mayonnaise, leaved salad, red radish, grapes, all fruits (such as apple, pears and peaches).
- For foods to be frozen quickly and thoroughly, the following specified amounts per package should not be exceeded.
  - Fruits and vegetables, 0.5-1 kg
  - Meat, 1-1.5 kg
- A small amount of foods (maximum 2 kg) can also be frozen without the use of the quick freezing function.

To obtain the best result, apply the following instructions:

- 1.** Activate the quick freezing function 30 hours before placing your fresh foods.
- 2.** 30 hours after pressing the button, firstly place your food that you want to freeze to the third drawer from the bottom with higher freezing capacity. If you have food remained, place them in front of the second drawer from the bottom.
- 3.** The quick freezing function will be automatically inactivated after 50 hours.
- 4.** Do not try to freeze a large quantity of food at a time. Within 24 hours, this product can freeze the maximum food quantity specified as «Freezing Capacity ... kg/24 hours» on its type label. It is not convenient to put more unfrozen/fresh foods to the freezer compartment than the quantity specified on the label.

- You can review the Meat and Fish, Vegetables and Fruits, Dairy Products tables for placing and storing your foods in the deep-freezer.

## Recommendations for Preservation of

### Frozen Foods

- While purchasing your frozen foods, make sure that they are frozen at appropriate temperatures and their packages are not broken.
- Put the packages on the freezer compartment as soon as possible after purchasing them.
- Make sure that the expiration date indicated on the packaging is not expired before consuming the packaged ready meals that you remove from the freezer compartment.

## Deep Freezer Information

The EN 62552 standard requires (according to specific measurement conditions) that at least 4.5 kg of food for each 100 liter of freezer compartment volume can be frozen at a room temperature of 25°C in 24 hours.

## Defrosting the frozen foods

Depending on the food diversity and the purpose of use, a selection can be made between the following options for defrosting:

- At room temperature (it is not very suitable to defrost the food by leaving it at room temperature for a long time in terms of maintaining the food quality)

- In the refrigerator
- In the electrical oven (in models with or without fan)
- In the microwave oven

### CAUTION:

- Never put acidic beverages in glass bottles and cans into your freezer due to the risk of explosion.
- If there is moisture and abnormal swelling in the packaging of frozen foods, it is likely that they were previously stored in an improper storage condition and their contents deteriorated. Do not consume these foods without checking.
- Since some spices in cooked meals may change their taste when exposed to long-term storage conditions, your frozen foods should be less seasoned or the desired spices should be added to the foods after the thawing process.

## Recommended Temperature Settings

<b>Freezer compartment setting</b>	<b>Remarks</b>
-20 oC	This is the default recommended temperature setting.
-21,-22,-23 or -24 oC	These settings are recommended when the ambient temperature is higher than 30°C or when you think the refrigerator is not cool enough due to frequent opening and closing of the door.
Quick Freeze	Use when you want to freeze your food in a short time.It is recommended to be applied to preserve the quality of your fresh food. You do not need to use the quick freezing function when putting your frozen food.You do not need to use the quick freezing function to freeze a small amount of fresh food, up to 2 kg per day.

Meat and Fish		Preparation	Longest storage time (month)	
Meat products	Veal	Steak	By cutting them 2 cm thick and placing foil between them or wrapping tightly with stretch	6 - 8
		Roast	By packing the pieces of meat in a refrigerator bag or wrapping them tightly with stretch	6 - 8
		Cubes	In small pieces	6 - 8
		Schnitzel, chops	By placing foil between cut slices or wrapping individually with stretch	6 - 8
	Mutton	Chops	By placing foil between meat pieces or wrapping individually with stretch	4 - 8
		Roast	By packing the pieces of meat in a refrigerator bag or wrapping them tightly with stretch	4 - 8
		Cubes	By packing the shredded meats in a refrigerator bag or wrapping them tightly with stretch	4 - 8
	Beef	Roast	By packing the pieces of meat in a refrigerator bag or wrapping them tightly with stretch	8-12
		Steak	By cutting them 2 cm thick and placing foil between them or wrapping tightly with stretch	8-12
		Cubes	In small pieces	8-12
		B o i l e d meat	By packaging in small pieces in a refrigerator bag	8-12
	Mince	Without seasoning, in flat bags	1 - 3	
	Offal (piece)	In pieces	1 - 3	
	Fermented sausage - Salami	It should be packaged even if it has casing.	1-2	
Jambon	By placing foil between cut slices	2-3		
Poultry and hunting animals	Chicken and Turkey	By wrapping in foil	4 - 6	
	Goose	By wrapping in foil (portions should not exceed 2.5 kg)	4 - 6	
	Duck	By wrapping in foil (portions should not exceed 2.5 kg)	4-6	
	Deer, Rabbit, Roe Deer	By wrapping in foil (portions should not exceed 2.5 kg, and their bones should be separated)	6 - 8	
Fish and seafood	Freshwater fish (Trout, Carp, Crane, Catfish)	After thoroughly cleaning the inside and scales, it should be washed and dried, and the tail and head parts should be cut when necessary.	2	
	Lean fish (Sea bass, Turbot, Sole)		4-6	
	Fatty fish (Bonito, Mackerel, Bluefish, Red Mullet, Anchovy)		2 - 4	
	Shellfish	Cleaned and in bags	4 - 6	
	Caviar	In its packaging, in an aluminum or plastic container	2 - 3	

<b>Fruits and Vegetables</b>	<b>Preparation</b>	<b>Longest storage time (month)</b>
String bean and Pole bean	By shock boiling for 3 minutes after washing and cutting into small pieces	10 - 13
Green pea	By shock boiling for 2 minutes after shelling and washing	10-12
Cabbage	By shock boiling for 1-2 minute(s) after cleaning	6 - 8
Carrot	By shock boiling for 3-4 minutes after cleaning and cutting into slices	12
Pepper	By boiling for 2-3 minutes after cutting the stem, dividing into two and separating the seeds	8 - 10
Spinach	By shock boiling for 2 minutes after washing and cleaning	6 - 9
Leek	By shock boiling for 5 minutes after chopping	6-8
Cauliflower	By shock boiling in a little lemon water for 3-5 minutes after separating the leaves, cutting the core into pieces	10 - 12
Eggplant	By shock boiling for 4 minutes after washing and cutting into 2cm pieces	10 - 12
Squash	By shock boiling for 2- 3 minutes after washing and cutting into 2cm pieces	8-10
Mushroom	By lightly sauteing in oil and squeezing lemon on it	2-3
Corn	By cleaning and packing in cob or granular	12
Apple and Pear	By shock boiling for 2-3 minutes after peeling and slicing	8 - 10
Apricot and Peach	Divide in half and extract the seeds	4 - 6
Strawberry and Raspberry	By washing and shelling	8 - 12
Baked fruit	By adding 10% sugar in the container	12
Plum, Cherry, Sour Cherry	By washing and shelling the stalks	8 - 12

<b>Dairy Products</b>	<b>Preparation</b>	<b>Longest Storage Time (Month)</b>	<b>Storage Conditions</b>
Cheese (except feta cheese)	By placing foil therebetween, in slices	6 - 8	It can be left in its original packaging for short term storage. For long-term storage it should also be wrapped in aluminum or plastic foil.
Butter, margarine	In its own packaging	6	In its own packaging or in plastic containers

## 6 Maintenance and cleaning

---

- We recommend that you switch off the appliance at the socket outlet and pull out the mains plug before cleaning.
  - Never use any sharp abrasive instrument, soap, household cleaner, detergent and wax polish for cleaning.
  - Use luke warm water to clean the cabinet of the appliance and wipe it dry.
  - Use a damp cloth wrung out in a solution of one teaspoon of bicarbonate of soda to one pint of water to clean the interior and wipe it dry.
  - If the freezer is not going to be used for a long period of time switch it off, remove all food, clean it as above and leave the door ajar.
  - To remove a drawer, pull it as far as possible, and then tilt it upwards, and then pull it out completely.
  - Any dust that gathers on the condenser, which is located at the back of the freezer, should be removed once a year with a vacuum cleaner.
  - Check door seals regularly to ensure they are clean and free from food particles.
- ⚠ Never use cleaning agents or water that contain chlorine to clean the outer surfaces and chromium coated parts of the product. Chlorine causes corrosion on such metal surfaces.

## 7 Do's and Don'ts

---

Do-Check contents of the freezer at regular intervals.

Do- Clean your freezer regularly.

Do- Keep food for as short a time as possible and adhere to "Best Before", "Use By" dates.

Do-Store commercially frozen food in accordance with the instructions given

on the packets that you buy.

Do-Always choose high quality fresh food and be sure it is thoroughly clean before you freeze it.

Do-Prepare fresh food for freezing in small portions to ensure rapid freezing.

Do-Wrap all foods in aluminium foil or freezer quality polythene bags and make sure any air is excluded.

Do-Wrap frozen food when you buy it and put it in to the freezer as soon as possible.

Do-Separate food in the compartments. This will enable you to find food quickly and avoid excessive door opening therefore save electricity.

Do-Remove ice cream from the freezer 10-20 minutes before serving.

Don't- Leave the door open for long periods as this will make the freezer more costly to run.

Don't- Put hot food into the freezer. Let it cool down first.

Don't- Put liquid-filled bottles or sealed cans containing carbonated liquids into the freezer as they may burst.

Don't- Store poisonous or dangerous substances in the Freezer. Your freezer has been designed for the storage of edible foodstuffs only.

Don't- Exceed the maximum freezing capacity ( 20 kg in any 24 hours) when freezing fresh food.

Don't- Consume ice-cream and water ices direct from the freezer. The low temperature may cause 'freezer burns' on lips.

Don't- Freeze fizzy drinks.

Don't- Try to keep frozen food which has thawed, it should be eaten within 24 hours or cooked and refrozen.

Don't- Remove items from the freezer with wet hands.

Don't- Close the door before placing the fast-freeze compartment cover in its place.

Don't- Leave frozen food at room temperature to thaw; the best way to defrost food is to put it in the fridge to thaw slowly. Make sure you avoid defrosting food or food juices drip onto other food.

Don't-Remove the plastic cover on the rear wall.

Don't- Damage the pipes on the appliance.

## Problem Solving

If the appliance does not operate when switched on, check:

- The plug is inserted properly in the socket and that the power supply is on. (To check the power supply to the socket, plug in another appliance)
- The fuse has blown/circuit breaker has tripped/main distribution switch has been turned off.
- The temperature control has been set correctly.
- New plug is wired correctly if you have changed the fitted moulded plug.

If the appliance is still not operating after the above checks, please refer to the section on "How To Obtain Service".

Please ensure that above checks have been made as a charge will be made if no fault is found.

## **BEKO UK AND ROI STANDARD MANUFACTURER GUARANTEE TERMS AND CONDITIONS**

Your new Beko product is guaranteed against faulty materials, defective components or manufacturing defects.

The standard guarantee starts from the date of original purchase of the product and lasts for a period of twelve (12) months unless Beko plc (the "Manufacturer") agrees to extend the guarantee for the product in writing. If you have purchased an American style Fridge freezer, the standard guarantee starts from the date of original purchase of the product, and lasts for a period of twenty four (24) months unless Beko plc (the "Manufacturer") agrees to extend the guarantee for the product in writing.

If you have any questions about the guarantee on your product (including how long it is valid), please contact your retailer or our contact centre on

0333 207 9710 (UK and Northern Ireland) or 01 862 3411 (Republic of Ireland)

This guarantee does not in any way diminish or affect your statutory rights in connection with the product. This guarantee is in addition to your statutory rights as a consumer. If you have any questions about these rights, please contact the retailer from which you purchased the product. In certain circumstances, it is possible that your statutory rights may offer additional or higher levels of protection than those offered under the terms of this guarantee.

### **What is covered by this guarantee?**

- Repairs to the product required as a result of faulty materials, defective components or manufacturing defects.
- Functional replacement parts to repair a product.
- The costs of a Beko plc Authorised Service Representative or Approved Engineer (together the "Service Representatives") to carry out the repair.

### **What is not covered?**

- Transit and delivery damage.
- Cabinet or appearance parts, including but not limited to control knobs, flaps and handles.
- Accessories and/or consumable items including but not limited to ice trays, scrapers, cutlery baskets, filters and light bulbs.
- Repairs necessary as a direct or indirect result of:
  - Accidental damage, misuse or abuse of a product.
  - An attempted repair of a product by anyone other than a Service Representative

- Installation or use of a product where such installation or use fails to meet the requirements contained in this guarantee or the User Instructions Booklet.

- Repairs to a product operated at any time on commercial or non-residential household premises (unless we have previously agreed to the installation environment).

This guarantee is limited to the cost of repairing the product. To the extent permitted by law, the Manufacturer does not accept and will not be held liable for any financial loss incurred in connection with the failure of any product to operate in accordance with the expected standards. Such financial loss includes but is not limited to loss arising from:

- Time taken off work.
- Damaged food, clothing or other items.
- Meals taken at restaurants or from takeaways.
- General compensation for inconvenience.

### **Important Notes**

1. Your product is designed and built for domestic household use only.
2. The guarantee will automatically be void if the product is installed or is used in commercial or non-residential domestic household premises, unless we have previously agreed to the installation environment.
3. The product must be correctly installed, located and operated in accordance with the instructions contained in the User Instructions Booklet provided with your product.
4. Professional installation by a qualified electrical domestic appliance installer is recommended for all Washing Machines, Dishwashers and Electric Cookers (as incorrect installation may result in you having to pay for the cost of repairing the product).
5. Gas Cookers must be professionally installed by a Gas Safe (or Gas Networks Ireland for Republic of Ireland) registered gas installer.
6. This guarantee is given in respect of products purchased and used within the United Kingdom and the Republic of Ireland.
7. This guarantee is effective from the initial date of purchase of a new product from an authorised retailer and will be void if the product is resold.
8. This guarantee does not apply to graded sales (where the product is purchased as a "second").
9. Possession of a copy of these terms and conditions does not necessarily mean that a product has the benefit of this guarantee. If you have any questions, please call our Customer Service Team on the number set out above.
10. The Manufacturer reserves the right to terminate the guarantee if its staff or representatives are subjected to physical or verbal abuse in the course of carrying out their duties.

**11.** Optional extras, where available (i.e. extendable feet) are supplied on a chargeable basis only.

### **Does Beko offer replacements?**

This is a repair-only guarantee. On occasion, the Manufacturer may at its sole discretion, replace your product with a new product instead of carrying out a repair. Where a replacement is offered, this would normally be an identical model but when this is not possible, a model of similar specification will be provided. Subject to agreement, the Manufacturer will cover the costs and arrange for the delivery of the new product and for the return of the old product. Any costs related to disconnecting the faulty product and installing the replacement product will not be borne by the Manufacturer unless previously agreed to in writing. The original guarantee will continue to apply to the replacement product; the new product will not come with a new guarantee.

### **When will the repair take place?**

Our Service Representatives work Monday to Friday 9.00am to 5.00pm. Appointments outside these hours may be possible at the sole discretion of the Manufacturer but cannot be guaranteed. Whilst our Service Representatives will endeavour to minimize inconvenience and to meet requests for specific timed appointments, this cannot be guaranteed. We will not be liable for delays or if it is unable to carry out a repair because a convenient appointment cannot be arranged.

### **Will there be any charge for the repairs?**

It is your responsibility to provide evidence to the Service Representative that your product is covered by this guarantee with a proof of purchase. The Manufacturer reserves the right to charge for the reasonable cost of any service call if:

- You cannot provide evidence that your product is covered by this guarantee.
- Where a service call has been made and the Service Representative finds that there is no fault with your product.
- That your product has not been installed or operated in accordance with the User Instructions Booklet.
- That the fault was caused by something other than faulty materials, defective components or manufacturing defects.
- For missed appointments.

Payment of these costs are due immediately upon the Service Representative providing you with an invoice. The Manufacturer reserves the right to terminate the guarantee if you fail to pay the costs for the service call in a timely manner.

If you are a resident of the United Kingdom, this guarantee will be governed by English law and subject to the exclusive jurisdiction of the English Courts, save where you live in another part of the United Kingdom, in which case the governing law and exclusive jurisdiction of the courts of that country will apply.

If you are resident in the Republic of Ireland, this guarantee will be governed by Irish law and the Irish courts will have exclusive jurisdiction.

This guarantee is provided by Beko plc. Beko House, 1 Greenhill Crescent, Watford, Hertfordshire. WD18 8QU.

Beko plc is registered in England and Wales with company registration number 02415578.

## **BEKO UK AND ROI BUILT-IN APPLIANCES GUARANTEE TERMS AND CONDITIONS**

If you have purchased a built-in or integrated appliance, and registered it within 90 days of purchase by completing the online registration form, then the standard 12 month guarantee will be extended to 24 months, under the same terms and conditions as detailed in our Standard Guarantee Terms and Conditions.

## **BEKO UK AND ROI PARTS GUARANTEE TERMS AND CONDITIONS**

This 10 year parts guarantee relates to Beko products.

To confirm if your Beko appliance has our 10-year parts guarantee you can visit our website at [beko.co.uk/guarantee-terms](http://beko.co.uk/guarantee-terms) or telephone our registrations team on 0800 497 0732.

The Parts guarantee terms and conditions are in addition to our Standard guarantee terms and conditions detailed in the previous section.

In order to activate the 10 year parts guarantee you **MUST** register the appliance within 90 days of the original purchase date. You can register by visiting our websites. For UK customer visit [beko.co.uk/register](http://beko.co.uk/register) or phone 0800 497 0732. For ROI customers visit [beko.ie/register](http://beko.ie/register) or phone 1800 911 690. Our Beko branded appliances carry FREE replacement parts for the first 10 years, provided they are fitted by our Service Representatives, at the applicable labour charge.

Beko free standing appliances come with a 12 month parts and labour guarantee as standard.

Beko built-in, integrated appliances or American fridge freezers come with a 12 month parts and labour guarantee as standard. This is extended to 24 months, free of charge, upon registration of the appliance. When you register

your appliance for additional guarantee, you will automatically activate the 10 year parts guarantee. You do not need to register twice.

To make a claim against your Beko Parts Guarantee (the "Guarantee"), all customer and product details must be registered with Beko plc using the procedure outlined below:

- 1.** This extra 9 years (for free standing appliances) or 8 years (for built-in or integrated appliances or American fridge freezers) guarantee is only effective after the expiration of the standard manufacturer's guarantee.
- 2.** It is only valid for certain models of Beko branded products serviced or repaired by Beko plc Authorised Service Representative and Own Engineers (the "Service Representative") and does not cover any labour charge or any:
  - a. Components including but not limited to cabinet or appearance parts, control knobs, flaps and handles.
  - b. Accessories and/or consumable items including but not limited to ice trays, scrapers, cutlery baskets, filters and light bulbs.
- 3.** To activate your guarantee, you MUST register your appliance within 90 days of the original purchase date, For UK customers, visit [beko.co.uk/register](http://beko.co.uk/register) or phone 0800 497 0732. For ROI customers visit [beko.ie/register](http://beko.ie/register) or phone 1800 911 690.
- 4.** Registrations made after 90 days of the original purchase date, may be required to pay an additional fee to activate the 10 year free parts guarantee.
- 5.** Any repair must be carried out by a Service Representative and booked directly with Beko plc.
- 6.** Labour for the repair is not included in this guarantee and is chargeable at the time of booking a repair.
- 7.** The repair is guaranteed for 12 months for the same defect.
- 8.** In the unlikely event that the appliance is beyond economical repair we may at the sole discretion of Beko plc offer you an appliance at a reduced price. Our call out fee will still apply.
- 9.** If the fault can't be identified and the appliance is functioning normally a call out fee will apply.
- 10.** The guarantee is not transferable and cannot be exchanged for cash.
- 11.** There are no alternative or additional offers to this guarantee.
- 12.** The guarantee is exclusive of the manufacturer's standard guarantee.
- 13.** All repair pricing can be found here [beko.co.uk/guarantee-terms](http://beko.co.uk/guarantee-terms) (UK & ROI). Alternatively contact our Customer Services Team for further information.
- 14.** All prices are subject to change without notice.
- 15.** The Terms and Conditions shown above are in addition to the standard terms and conditions of your product guarantee. Please read and refer to such Terms and Conditions when making any claim.
- 16.** We may use the information you provide for marketing purposes and to analyse your purchasing preferences. We may keep your information for a

reasonable period for these purposes in accordance with the applicable Data Protection Laws and General Data Protection Regulations (GDPR). You can opt into this service during the registration process. Further details are available at [beko.co.uk/cookie-and-privacy-policy](http://beko.co.uk/cookie-and-privacy-policy)

**17.** These Terms and Conditions are governed by the laws of England and Wales; manufacturer: Beko plc, Beko House, 1 Greenhill Crescent, Watford WD18 8QU. Company Registration Number: 02415578.

## **HOW TO OBTAIN SERVICE FOR YOUR APPLIANCE**

Please keep your purchase receipt or other proof of purchase details in a safe place; you will need to have this documentation available should the product require attention under guarantee.

Please take a few moments to complete the details below, as you will need this information when you call us, or to use our online services. For help please visit [beko.co.uk/support/model-finder](http://beko.co.uk/support/model-finder).

- The product model number is printed on the Operating Instruction Booklet / User guide
- The product model and serial number is printed on the Rating Label affixed to the appliance.
- The Retailer (Purchased from) and Date of purchase will be printed on your purchase receipt or other proof of purchase paperwork

Recording of these details alone will not count as proof of purchase. A valid proof of purchase is required for requesting service under guarantee.

<b>Model number</b>	<b>Serial number</b>	<b>Purchased from</b>	<b>Date of purchase</b>

For service under guarantee or for product advice please call our Customer Service Team

Before requesting service please check the troubleshooting guide in the Operating Instructions booklet or our video support found [beko.co.uk/support/how-to-guides](http://beko.co.uk/support/how-to-guides), as a charge may be levied where no fault is found, even though your product may still be under guarantee.

After arranging a service visit please ensure the area around the product must be easily accessible to the Service Representative, without the need for cabinets or furniture to be removed or moved.

It is your responsibility to ensure our Service Representatives have a clean and safe environment to carry out any repairs.

Please have your Model number and Serial number available when you call us, as you will be required to provide it prior to booking a service visit

### **UK Mainland & Northern Ireland:**

**0333 207 9710**

Landline or mobile calls to 0333 numbers cost no more than calls to geographic numbers 01 or 02 and are charged at the basic rate. Calls from landlines and mobiles are included in free call packages but please check with your telephone service provider for exact call charges.

### **Republic of Ireland:**

**01 862 3411**

### **Service once the manufacturers guarantee has expired**

If you have purchased an extended guarantee please refer to the instructions contained within the extended guarantee agreement document, otherwise please call us using the appropriate number above, where service can be obtained at a charge.

If you do not have any extended guarantee you can call the Customer Services Team for UK customers on 0330 123 1750 and ROI customers on 01 862 3411

### **Contact us though our website**

Send us a secure message through our online contact us form. Please visit our website, click Contact Us and choose a product support topic from the list of options. Complete the required details and click send message.

### **Product registrations**

For UK registrations please visit [beko.co.uk/register](http://beko.co.uk/register) and for the Republic of Ireland visit [beko.ie/register](http://beko.ie/register).

## **DISCLAIMER / WARNING**

Some (simple) failures can be adequately handled by the end-user without any safety issue or unsafe use arising, provided that they are carried out within the limits and in accordance with the following instructions (see the “Self-Repair” section).

Therefore, unless otherwise authorized in the “Self-Repair” section below, repairs shall be addressed to registered professional repairers in order to avoid safety issues. A registered professional repairer is a professional repairer that has been granted access to the instructions and spare parts list of this product by the manufacturer according to the methods described in legislative acts pursuant to Directive 2009/125/EC.

**However, only the service agent (i.e. authorized professional repairers) that you can reach through the phone number given in the user manual/warranty card or through your authorized dealer may provide service under the guarantee terms. Therefore, please be advised that repairs by professional repairers (who are not authorized by Beko) shall void the guarantee.**

### **Self-Repair**

Self-repair can be done by the end-user with regard to the following spare parts: door handles, door hinges, trays, baskets and door gaskets (an updated list is also available in support.beko.com as of 1st March 2021).

Moreover, to ensure product safety and to prevent risk of serious injury, the mentioned self-repair shall be done following the instructions in the user manual for self-repair or which are available in support.beko.com. For your safety, unplug the product before attempting any self-repair.

Repair and repair attempts by end-users for parts not included in such list and/or not following the instructions in the user manuals for self-repair or which are available in support.beko.com, might give raise to safety issues not attributable to Beko, and will void the warranty of the product.

Therefore, it is highly recommended that end-users refrain from the attempt to carry out repairs falling outside the mentioned list of spare parts, contacting in such cases authorized professional repairers or registered professional repairers. On the contrary, such attempts by end-users may cause safety issues and damage the product and subsequently cause fire, flood, electrocution and serious personal injury to occur.

By way of example, but not limited to, the following repairs must be addressed to authorized professional repairers or registered professional repairers: compressor, cooling circuit, main board, inverter board, display board, etc.

The manufacturer/seller cannot be held liable in any case where end-users do not comply with the above.

The spare part availability of the refrigerator that you purchased is 10 years. During this period, original spare parts will be available to operate the refrigerator properly

**The minimum duration of guarantee of the refrigerator that you purchased is 12 months.**
